## CALIX PROFESSIONAL HEATER (PH)

Standard engine heaters cannot be fitted to certain vehicles, and Calix has met the demands of this market with Calix Professional Heater (PH).

Calix PH is based on a self-circulating principle and fitted with overheating guard and a thermostat. The heater is equipped with a rubber sealing for increased service life and reliability.

The PH is available in two versions; high temperature area for frequently used machinery and low temperature area for example emergency equipment and rescue vehicles.

All PH have 20 mm diameter connection tube. The PH can be delivered either as a complete kit with heater and original bracket, cables, etc. or with just a heater and the original bracket. Bracket PH Pro to be ordered separately.

PH with bracket PH Pro

PH with original bracket

Designation	Power	Recommendation	Regulation range	Part No. Kit	Part No. Heater
PH500H	500W	4-12 liter cooling system	60/80°C (+/-5°C)	1830500	1833050
PH750H	750W	12-18 liter cooling system	60/80°C (+/-5°C)	1830750	1833070
PH1000H	1000W	16-25 liter cooling system	60/80°C (+/-5°C)	1831000	1833100
PH1500H	1500W	25-30 liter cooling system	60/80°C (+/-5°C)	1831500	1833150
PH2000H	2000W	>30 liter cooling system	60/80°C (+/-5°C)	1832000	1833200
PH500L	500W	4-12 liter cooling system	25/50°C (+/-5°C)	1830502	1833052
PH750L	750W	12-18 liter cooling system	25/50°C (+/-5°C)	1830752	1833072
